ANNUAL REPORT ON THE ADMINISTRATION
of
THE BUNDI STATE.

(October 1937 to September 1938.)

CHAPTER I.—GENERAL & POLITICAL.

**1. Situation, Boundary, Area, Population,
Revenue & Tribute.**

SITUATION. The State of Bundi lies in the North-East of Rajputana between latitude 24.59" and 26.0" and longitude 72.18" and 76.21".

BOUNDARIES. The State is bounded on the North by Tonk, Jaipur and Udaipur States, and on the East by the Chambal river and Kotah State, on the South by the Chambal and Kotah State and on the West by Udaipur State.

GENERAL ASPECT. The State is intersected by the Aravalli Hills running from East to West. These hills are thickly wooded, but except for the manufacture of charcoal, these forests are of little commercial value. The rivers run from West to East, flowing into the Chambal, and afford opportunities for bund construction and good irrigation. As funds become available projects will be undertaken. There is a large amount of uncultivated land in the State owing to the lack of population, but now that the Settlement is in progress and rates are being reduced to the minimum there is a tendency for more land to be taken up.

A great deal of the State is made up of rocky soil which is impossible to cultivate. Stone quarries are worked for local consumption, but the quality, and the difficulty of transport make it an impossible export trade. Mica of a rather inferior type is found and is worked in a small way.

REVENUE & TRIBUTE. The revenue of the State during the year was Rs. 15,60,376 as against Rs. 16,73,581 of the previous year. The State pays tribute of Rs. 72,000/- to the British Government.

2. His Highness The Maharao Raja Sahib's Name & Title.

The present Ruler of the State is His Highness the Maharao Raja Sir Ishwari Singhji Bahadur, G. C. I. E., a Hara Rajput of the Chauhan clan. His Highness is the son of Maharaj Raghuraj Singhji, the third brother of His Highness the late Maharao Raja Sir Raghbir Singh Bahadur. He was born on the 8th March 1893 and succeeded his uncle on the 8th August 1927. His Highness is the only surviving descendant of His Highness the Maharao Raja Sir Ram Singh Bahadur.

His Highness's health remained good throughout the year.

The Heir, Maharaj Kumar Bahadur Singhji, was adopted by His Highness in 1933 from the family of Kapren. The Maharaj Kumar is 18 years of age, and is being educated at the Mayo College, where he is under the guardianship of Mr. V.A.S. Stow, M.A., C.I.E., the Principal.

6. Political Agency, Eastern Rajputana States.

Mr. H. J. Todd has visited Bundi on several occasions during the year. It is with much regret that His Highness learns that Mr. Todd is leaving this Agency to proceed on leave. His Highness feels he has lost a sympathiser and friend, who has given much valuable advice to the Bundi State.

CHAPTER II. REVENUE.

REVENUE DEPARTMENT.

8. Personnel.

In addition to the administration of the Revenue Department, the Revenue Member continued to hold charge of the Settlement, Jagiri and Muafi, Court of Wards, Punyarth, State Temples, State Agricultural Farm, District Municipalities and Registration.

9. Land Revenue.

The State is divided into three districts, each under the charge of a Deputy Commissioner:-

Dy Commissioner Circle	Tahsils.	Girdawar Circles.	Patwari Circles.
1. Patan	1. Patan	1	6
	2. (Kapren (Gendoli	1	7
	3. Lakheri	1	3
2. Nainwa	1. Nainwa	1	6
	2. Deyi	1	5
3. Deopura	1. Deopura	1	6
	2. Hindoli	2	9
	3. Barundhan	2	6
		11	52

During the year Gendoli Tahsil was closed and the area divided between Deopura, Patan, Deyi and Kapren Tahsils. The question of closing Lakheri Tahsil is under consideration as a further measure of economy.

The total number of villages was 923, of which 709 were Khalsa and 214 Jagiri or Muafi. The number has been decreased by 7, as hamlets have been included in villages.

10. Touring of Revenue Officers.

The Revenue Member spent 71 days on tour as against 89 days of last year. The Revenue Member was placed on special duty in connection with the marriage of Shree Maharaj Kumar from 8th March to 20th May, 1938 and as a result he was unable to tour as much as last year. The Dy. Commissioner Patan toured 81 days as against 88 days, the Dy. Commissioner Nainwa 65 days as against 42 days, and

the Dy. Commissioner Deopura 45 days against 75 days of last year.

11. Rainfall.

During this year the rainfall was on the whole satisfactory. The highest recorded was at Lakheri with $42\frac{1}{2}$ ", while the lowest recorded was at Deopura with only 18 inches. Rainfall is very local, but as long as 5 to 8 inches fall in June and July, 3 to 4 inches in August and 2 inches in September it is sufficient for both crops. To fill the tanks, however, 8 to 10 inches of heavy rain are required in June or July. Light rains do very little good other than to standing crops.

12. Crops.

Both the Rabi and Kharif crops were on the whole satisfactory. Improved varieties of sugarcane, wheat, and rice are now being issued from the State Farm and grown with success.

13. Land Revenue Demand.

The total area from which land revenue was collected came to 7,79,989 bighas as against 7,59,549 of last year, an increase of 20,440 bighas. Of this the Mustaqil i. e., area from which the fixed land revenue was collected, was 7,32,733 while the Gair Mustaqil (Bajeja Jama), i. e., area from which revenue is charged by measurement was 47,256 bighas. The actual new cultivation was 30,949 bighas, while the area relinquished was 10,509 bighas.

Since 1932 when the Revenue Department was re-organised the area occupied has risen from 7,28,480 to 7,79,989 bighas.

The total demand under all headings for the year was Rs. 7,54,400. The actual amount collected was Rs. 7,65,481/- as against Rs. 7,52,135/- of the previous year. Arrears for the year were Rs. 1,778/-, and the amount remitted was Rs. 1,738/- During the previous year Rs. 5,416/- were in arrears.

At the beginning of the year the total arrears outstanding amounted to Rs. 70,549/- as against Rs. 93,600/-. This year the collection under this heading was Rs. 10,606/- as against Rs. 13,464/-. A sum of Rs. 5,421/- was remitted. The total outstanding including this year's arrears is Rs. 56,300/-. An attempt is being made to clear up this outstanding by writing off the irrecoverable amount and collecting the remainder. This, I am afraid, will take at least 3 years to complete.

The expenditure of the department was Rs. 69,608/- as against Rs. 69,158/- of the previous year.

14. Cattle Pound.

During the year 10741 cattle were impounded, of these 9387 were released, 542 auctioned, 41 died, 26 absconded, 676 transferred and 69 remained in the pound at the end of the year. The total income was Rs. 6,754/- as against Rs. 7,417/- of last year, while the expenditure was Rs. 2,838/- as against Rs. 3,574/- of last year.

15. Prices.

The average rates of the principal food grains in seers per rupee for the year 1937-38 are compared below with those of the previous years:-

19. Court of Wards.

Pt. Bhanwar Lal Chanderia continued in charge. At the beginning of the year 21 estates were under the Court of Wards. During the year 18 were added, and 6 were released, leaving a total of 33. The total annual income of the estates amounted to Rs. 55,903. Debts to the value of Rs. 10,197 were paid, leaving a balance of Rs. 45,726.

20. Agriculture Experimental Farm.

The Farm remained under the charge of Mr. Ajit Singh, the Farm Manager, who is doing useful work. Experiments in various varieties of wheat, sugar cane, rice, cotton, jowar, gram, tilly, linseed, ground-nuts and potatoes have been carried out during the past two years. Good results have been obtained in sugar cane, wheat, rice and potatoes. For Mal (unirrigated) land wheat of the Punjab 9 D variety and the Bansi 168 variety have been adopted as the standard. These varieties

produced four times as much as local wheat and the difference in the crop is sufficient to pay the total revenue demand. Sugar cane of the Coimbatore variety has been successful and is being multiplied. Rice of the Basumati and Palman varieties, and seed potatoes of the Italian variety are being introduced.

Towards the end of the year a four furrow Disk Plough was purchased and it proved very successful in breaking up new land. The plough is hauled by a Diesel Caterpiller Tractor.

21. Survey & Settlement.

SURVEY. Altaf Hussain Khan was in charge of the Survey operations. During the year an area of 6,58,522 bighas which included 143 villages was surveyed and maps were prepared. The traverse party completed the boundaries of 161 villages, an area of 600 sq. miles.

The survey of the Patan District which includes the Tahsils of Patan, Kapren and Lakhari has been completed. The Deopura District, which includes the Tahsils of Deopura, Barundhan and Hindoli, is now nearing completion. A part of Hindoli which was left unfinished during the year will be completed in the coming year. This only leaves the Nainwa District which should be completed by the end of September 1941.

SETTLEMENT. The Settlement was in charge of Kr. Raghbir Singh, Asstt. Settlement Officer. During the year the new Settlement was announced and well received at 55 villages in Deopura Tahsil.

The settlement of Patan District has been completed. Tahsil Hindoli is left to be completed in the Deopura District and the Nainwa District is yet to be taken up. The settlement is likely to continue for another four years before it is finally completed.

Major Webb, on his appointment as Dewan, took up this very important work, and by so doing he has given a feeling of security to the cultivators of the State. The result has been that more land has been taken up and there is a general feeling of contentment.

The Revenue rates are very reasonable and they compare very favourably with those of other places in India. It is significant that few, if any, appeals against the new rates have been received.

Of all the works taken up in the State this is certainly the most important.

CHAPTER V. FINANCE.

42. General.

Mr. A. W. Robertson continued as Finance Member with Pandit Mukat Behari Lal as Accountant General.

43. Income.

The total income of the State during the year was Rs. 15,60,376 as against Rs. 16,78,587 of the preceding year and Rs. 15,21,799 of 1935-36. The year 1936-37 was abnormal and shows a larger income than can usually be expected. This was due to the recovery of Rs. 1,25,000 under the heading of loans.

During the year Rs. 56,259 was repaid towards the liquidation of the State debt. Rs. 48,000 was invested and Rs. 29,136/- carried forward.

The export trade during the year showed a general decline, as was the case throughout India. As long as prices remain at their present level stocks will increase and little export trade will be carried on. In spite of this the balance of trade is good and exports show a much higher figure than imports.

44. Loans.

46. Conversion.

After consultation with the Government of India the Darbar decided to abolish the local Hali coin with effect from

1st October 1938, and in its place to circulate the British Indian Rupee. The main difficulty in this connection was that no proper record had been kept of how much Hali had been minted. As British Indian currency was in circulation side by side with Hali, an estimate was eventually arrived at, i.e., Rs. 7/- Hali per head of the population. This allows for a sum of about 15,00,000 local coin, which together with the Treasury balance of Rs. 5 00,000. give a total of Rs. 20,00,000. The rate of exchange was fixed after consultation with the Government of India, based on the average of the past 6 months, i.e., 125/- local coin for every 100/- British Indian coin. This conversion could not have been contemplated without the generous assistance of the Government of India, who are lending a sum equivalent to the loss involved at favourable rates, as well as taking over a fixed sum of local coin at special rates.

The rate of silver at the present time does not encourage sales, but nothing short of a war is, in the opinion of the experts, likely to improve prices.

In order to facilitate calculation the figures for local coin have been converted at the rate of 125/- to 100/- British Indian rupees throughout the report.
